| APPROVAL OF STATE ENGINEER  |
| This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the   |
| following limitations and conditions: This permit is issued subject to all existing   |
| rights on the source and is limited to what the well will produce but   |
| not to exceed 0.01 c.f.s. It is understood that the amount of water   |
| herein granted is only a temporary allowance and that the final water   |
| right obtained under this permit will be dependent upon the amount of also  |
| water actually placed to beneficial use. It is/understood that this   |
| right must allow for a reasonable lowering of the static water level at   |
| permittees! well due to other ground water development in the area. A   |
| substantial weir or other type of measuring device must be installed and  |
| measurements of water use kept, and a method provided, either air line of   |
| opening, for measuring depth to water. The State retains the right to   |
| regulate the use of the water herein granted at any and all times.  |
| The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and   |
| not to exceed 0.01 cubic feet per second not to exceed  |
| O.10 M. G. annually.  |
| Actual construction work shall begin on or before December 16, 1961   |
| Proof of commencement of work shall be filed before January 16, 1962  |
| Work must be prosecuted with reasonable diligence and be completed on or beforeDecember 16, 1962  |
| Proof of completion of work shall be filed before. January 16, 1963   |
| Application of water to beneficial use shall be made on or before   |
